

**Mika Lavento, Petri Halinen, Vladimir Timofeev, Dmitri Gerasimov and Alexander Saks:** An archaeological field survey of Stone Age and Early Metal Period settlement at Kaukola (Sevastyanovo) and Räisälä (Melnikovo) on the Karelian Isthmus in 1999 (FA XVIII, p. 3-25)

Due to unfortunate coincidences, the following table (Appendix 1) was missing from the article of Lavento *et al.* published in FA XVIII:

New dwelling sites (N2 in the table) in Kaukola and Räisälä with the 20 m contour line. The illustration shows an area of 33 x 23 kilometres. Map: Antti Korpisaari and Mika Kunnari (first published: FA XVIII:10, Fig. 2.)

Appendix 1. Sites known before 1944 and new sites found during the survey 1999 in Kaukola and Räisälä.

N1 refers to the numbering used in the database of the sites on the Karelian Isthmus by the Early in the North –project (Carpelan, pers. comm. 2.2.2001). N2 refers to the numbering used during the survey of Kaukola and Räisälä (see map) (Halinen et al. 2000). X, y, and z are basic coordinates in Finnish 1:20 000 maps published before 1944.

Kaukola
